

CLEANING TIPS FOR YOUR BELLEVILLE MAINTAINERS™

Working closely with the U.S. Air Force, Belleville has designed a series of industrial boots to withstand the rigors of maintenance environments. These styles feature highly durable and abrasion resistant toe caps and heel overlays that extend the life of the boots. The smooth, grain-out leather makes cleaning these boots easy with these simple steps:

1. **WIPE** BOOT CLEAN OF EXCESS, STUCK-ON DIRT WITH A WARM, CLEAN TOWEL.

2. **WASH** DIRTY AREA WITH MILD DETERGENT AND SOFT BRISTLE BRUSH. ALLOW TIME TO DRY.

3. **APPLY** NEUTRAL-COLOR POLISH TO FULL GRAIN LEATHER TO MAINTAIN SOFTNESS AND RESTORE NATURAL LUSTRE.

4. **WEAR** LIKE THEY'RE NEW.
